**EN ISO 20347:2011**

**UPPER** Water-repellent and breathable polyester jacquard fabric. Cut resistant, anti-fraying, rip and abrasion resistant . Waterproof KPU reinforcement in the inner fast rope , in the metatarsal, toe cap, heel and ankle Pocket to store the strings.

**LINING** **PLASMAFEEL** breathable, antibacteria 3D fabric, resistant to wear and abrasion coupled with the waterproof and breathable **H-DRY** membrane that unlike traditional sock lining, is applied directly on the upper and integrally seals all seams creating a barrier to water and keeping the foot warm and dry.

**INSOLE** **ACTIVE** - Made from recycled materials. Thermoformed in dual-density polyurethane with a tear resistant multilayer fabric. High breathability and quick absorbing thanks also to a special puncturing in the forepart, for a foot that is always dry. Antistatic, antibacterial, anti fungus, the presence of activated carbon keeps the foot free from bad smells. Complete with shock-absorbing heel support to reduce impacts on the entire spine and arch support to ensure greater comfort.

**SOLE** **PU / VIBRAM ® - BASF PUR Elastopan ®** polyurethane foam insole , ensures the maximum comfort and the absorption of the impact on all surfaces . **VIBRAM ®** outsole, with an elevated grip, resistant to up to a 300°C (HRO certified), guarantees the maximum levels of slip resistance . Resistant to corrosion by oils and hydrocarbons. It leaves no mark on the surface.

**TOE CAP** **CARBON CAP** is an exclusive carbon fiber toe cap . In addition to being lighter , it guarantees a wider fit and better balance of the shoe for superior comfort . It is Metal free and guarantees thermal insulation at extreme temperatures superior to aluminum or steel toe caps, thus maintaining a constant body temperature . Toe cap certified according to EN ISO 22568-1:2019 requirements

**LAST** **ANATOMIC SOLE** The anatomical last of the injected sole, unlike removable insoles, is inalterable for the entire lifetime of the shoe . The Anatomic sole , following the natural morphology of the foot, provides a natural support to all its points , ensuring maximum comfort

**ANTI-TORSION SUPPORT** **COMPOSHANK** Anti-torsion support in ABS. It is applied between the antiperforation midsole and the midsole , corresponding to the arch of the foot. It improves stability on ladders, where foot support is not complete.

**ANTI-STATIC DEVICE** **SILVER STRIP DISCHARGE (SSD)**. Conductive cotton tape and silver threads inside the upper and in contact with the foot. It is an anti-static device that guarantees greater safety than the standard, increases the dispersive capacity of the electrostatic charges throughout the life of the shoes.
